Child Development Center

A foundation for life-long learning

OUR PHILOSOPHY

We believe that the early years provide a foundation for life-long learning. Our program is based on the well-established belief that children learn best in a play-based learning environment that supports individual and group needs in all areas of their development.

We believe each child is capable of constructing his/her own knowledge when given the time, resources, activities and meaningful interactions that expand and extend their understanding of the world around them.

We strive to provide enriched learning experiences based on the latest research and best practices to meet the needs of children, families, staff, and college students.

ABOUT THE CENTER

The Child Development Center at Los Angeles Mission College provides high-quality care and education for young children at our on-campus location, as well as through a network of Family Child Care homes located in our surrounding areas.

Our highly qualified staff provide warm, welcoming, and nurturing settings for meaningful learning experiences. Our faculty and master teachers, with the assistance of student teachers, provide carefully planned activities to enrich and strengthen each child.

Families play an integral role in our community. We encourage families to be fully aware and involved in their child's education and development.

We also provide a lab setting where Child Development students can apply theory to practice as they prepare for careers in early childhood education.

TYPES OF PROGRAMS

- Infant
- Toddler
- Preschool
- Parent Education

ENROLLMENT REQUIREMENTS

Service requires students to be enrolled in at least 12 units between 7:30 a.m. – 3:30 p.m. Monday through Friday. Families from the community are also required to have a need for child care which is determined through the application process.

The following documentation is required:

- Proof of family gross income (before taxes)
- Employment verification or training verification
- Identification/emergency information
- Birth Certificate
- Current immunization record
- Pre-admission health examination
- Proof of address

CDC and FCCHEN each requires an individual application to be considered.
