Vision

Los Angeles Mission College will provide high quality learning opportunities in an atmosphere that respects and assists all people in pursuit of their educational goals. Modes of instruction will match the changing needs of students in acquiring essential academic and vocational skills. Through curriculum, cultural, academic and artistic events, the college will prepare students to become informed and sensitive interpreters of complex moral and social controversies. The college will develop informed, active citizens who recognize and appreciate the common humanity of all people. We will encourage student and staff learning, and personal growth as lifelong endeavors. The college will practice an honest, collegial, and inclusive decision-making process that respects the diversity and interdependence of the college, student body, and the community we are privileged to serve.

Values

We value:
1. *Intellectual curiosity and the desire to learn.*
2. *A global vision that understands and appreciates the common goals and purposes of all people.*
3. *The pursuit of excellence in our academic, vocational, athletic, and artistic endeavors.*
4. *An appreciation of diversity that nourishes mutual respect and solidarity.*
5. *Integrity and collegiality in all our interactions*
6. *Service to the campus and the local community*
