College Reading & Composition I

Develops proficiency in college-level reading and writing through the application of the principles of rhetoric and the techniques of critical thinking. Students will write expository essays based on college level readings. Emphasis is placed on the research paper. NOTE: This is the first freshman composition course that meets requirements for the BA at four-year colleges and universities, comprising intensive reading, writing of essays, term papers, the study of style, methods of discourse, logic, and documentation.

The Weekend College classes combine online assignments and weekend class meetings in an accelerated format, covering a lot of material in a short period of time. You must complete all components to successfully pass the class. The course requirements are in the instructor's syllabus. **See login instructions below.** The term is just eight weeks, and you can expect to spend 10 to 12 hours per week completing the assignments. Schedule time in advance for reading the textbook, completing online assignments, and attending class each weekend.
