Getting Started

Even though you do not meet with your instructor until the first weekend of the semester, your class begins online September 2, 2008. Follow the checklist below to get started in your class now.

1. Choose a Campus

Select the campus to attend your weekend class and make note of its time and location.

2. Buy Your Books

The back of this page lists the required and recommend books for your course. Buy your books as soon as possible so that you can get started on your assigned readings. Textbooks can be purchased at City, Southwest, Mission, Valley, and Pierce Colleges or from most online bookstores.

3. Log In

The class website opens **Sept. 2**, log in and read your course syllabus. It will list all assignments and quizzes times and due dates. You can find log in instructions on the last page of this letter.

4. Email Your Instructor

Once you have logged in, email your instructor and let her know that you have successfully logged in to the class website.

Weekend College courses are fast paced—covering a lot of material in a short period of time. At a minimum, you can expect to spend 10 to 12 hours per week completing the assignments. Schedule time in advance for reading the textbooks, watching the video episodes, and completing the online assignments. If you plan to watch or record the videos on the educational cable channel LA 36, also note those times and set the timer on your Tivo or DVD recorder in advance. You can find the broadcast schedules on the back of this page

Welcome to Health 11: Principles of Healthy Living. Health related topics surround us every moment of every day, from the food we consume, to the freeways we drive and the friends we choose. This course is designed to provide you with a comprehensive overview of the variety of health issues, which affect each of us. During this course you will be able to identify models for health behavior change, understand key health issues effecting the world today, and to develop methods for managing individual health decisions in your day-to-day lives.

This brief course is designed to cover a myriad of topics in a very short period of time. In order for all of us to be successful in this course, it is pertinent to keep a watchful eye on assignments and due dates. Active participation in the weekend lectures is a key component to this course as it allows us the opportunity to discuss common health issues in context with our daily lives. Class discussion will bring liveliness to the course which cannot be achieved through the videos and online components alone.

Please be sure to purchase the required textbook, An Invitation to Health, Brief Edition by Diane Hales. I also recommend that you purchase The Telecourse Guide for Journey To Health as this will provide guidance through the video series. Textbooks may be purchased at the campus bookstores of each of the four campuses where classes meet.

It is my opinion that the key to happiness often lies in the health of individuals. For many people, making a decision to be healthy is making a decision to be happy. It may take only one healthy behavior change by each of us to inspire those around us to make a change of their own! How can we resist doing our part to improve to the world around us? Enjoy the journey we are about to embark on!

Once you have logged on, do the following

- ✓ Print the syllabus and attached course outline chart
