Dear Students:

Welcome to Health 11. By taking this course, you have given yourself an opportunity of not only completing one of your required college courses you will also get a chance to learn on purposefully selected and up-to-date topics in Health. This class will be fast-paced and we will be covering a great deal of information, however, my collective experience shows that it is both engaging and enjoyable (according to 90+% of previous students).

In my opinion "Health" is the most important topic in 21 Century. It is a fact that, radio and TV shows try to incorporate a health related topics or news in their programs to boost their ratings. Remember that educating yourself will be more fruitful if you share your information with others, helping to improve the overall health knowledge of our society, and leading it toward a healthier community. Having an informed role model is all it takes to mold a healthier new generation. As far as our course is concerned please remember that:

- After logging on for the first time, the first thing to do is to read Please Read This First, then go to the discussions section in your home page and reply to the topic of lets introduce ourselves. After this, make sure to take the practice quiz.
- Download the course syllabus from the Etudes web site under the "classroom" icon at the upper left of the home page.
- You should purchase the following textbook:
An Invitation to Health, Brief Edition
Author: Hales, Diane
Publisher: Thomson Learning
Edition: 5th, 2008
ISBN: 978-0-4951-1175-7
- Make sure to check the schedule for due dates on assignments, tests, and other requirements of this course.
- It is very important to communicate with me about any difficulties that you might experience, which in any shape or form might effect your successful completion of this course. I am sure together we will try to find a solution.
- Finally, if you are interested in collecting some extra credit toward your final grade make sure to write a paragraph about each video lesson, these lessons are powerful tools to understand health topics in great detail.

With my best to all of you,

Hossein Asili, M.S.
