Graduation Requirements

The Board of Governors of the California Community Colleges has authorized the Los Angeles Community College District Board of Trustees to confer the degrees of Associate in Arts and Associate in Science.

The awarding of an Associate Degree symbolizes a successful attempt on the part of the college to lead students through patterns of learning experiences designed to develop certain capabilities and insights. Among these are the ability to think and to communicate clearly and effectively both orally and in writing; to use mathematics; to understand the modes of inquiry of the major disciplines; to be aware of other cultures and times; to achieve insights gained through experience in thinking about ethical problems; and to develop the capacity for self-understanding. In addition to these accomplishments, the student should possess sufficient depth in some field of knowledge to contribute to lifetime interest.

The following requirements apply to all students. Continuing students with uninterrupted attendance and demonstrating satisfactory progress, exclusive of summer session, should refer to the graduation requirements listed in the catalog in effect at the time of their initial enrollment. A continuing student is one who has completed a minimum of one course per semester, except that completion with a "W" will be accepted for one semester only. Students who interrupt their attendance become subject to any new requirements which are in effect at the time they re-enroll.

LATE PETITIONS: Students, who petition to graduate after the deadline, will receive a graduation date of the semester that the petition is received. The permanent record and diploma will reflect the semester date when the student petitioned. A transcript memo will reflect the date that the A.A. degree was granted.

I. Unit Requirement - 60 to 72 units of course credit in a selected curriculum. One credit hour of community college work is approximately three hours of recitation, study, or laboratory work per week throughout a term of 16 weeks.

II. Scholarship Requirement - A "C" (2.00) grade point average or better in all work attempted.

III. Competency Requirement - Students must demonstrate competence in reading, and written expression, and in mathematics. The following courses and examinations are approved to meet the competency requirement for the Associate Degree in Board Rule 6201.12:

A. The competency requirement in reading and written expression may be met by completion of one of the following courses (or its equivalent at another college) with a grade of "C" or better:
   1. ESL 8, English 28, English 101
   2. In meeting the reading and written expression competency requirement, course work is the primary measure of competency. However, competency may be met through credit-by-examination, as determined by the individual colleges.

B. The competency requirement in mathematics may be met by completion of one of the following courses (or its equivalent at another college) with a grade of "C" or better.
   1. Mathematics 113 and 114, 115, or any higher level mathematics course with a prerequisite of Mathematics 115 or its equivalent, or
   2. Achievement of a score of 15 or higher on the District Mathematics Competency Examination.

V. Residence Requirement - Completion of at least 12 units of work in residence and attendance at the college during the semester in which the graduation requirements are completed. Exceptions may be made under special circumstances.

VI. Course Requirements - Students who are majoring in programs of study for which 18-35 units are required in the major shall complete Graduation Plan A. Students who are majoring in programs of study for which 36 or more units are required in the major shall complete Graduation Plan B.

LOS ANGELES MISSION COLLEGE ASSOCIATE IN ARTS/ASSOCIATE IN SCIENCE DEGREE REQUIREMENTS

Los Angeles Mission College offers three types of Associate Degrees: Plan A designated majors, Plan B designated majors, and Transfer Associate Degree in Liberal Arts or Interdisciplinary Studies. Each of these degree options must satisfy the following requirements:

1. Mathematics 113 and 114, 115, or any higher level mathematics course with a prerequisite of Mathematics 115 or its equivalent, or
2. Achievement of a score of 15 or higher on the District Mathematics Competency Examination.

Continuing students with uninterrupted attendance and demonstrating satisfactory progress, exclusive of summer sessions, should refer to the graduation requirements listed in the catalog in effect at the time of their initial enrollment. A continuing student is one who has completed a minimum of one course per calendar year; completion with a "W" will be accepted for one semester only. Students who interrupt their attendance become subject to any new requirements that are in effect at the time of re-enrollment.

**E. Health & Physical Education**  
2 Courses/3-4 Units  
1. Health Education  
Health 8, 11  
2. Physical Education Activity (1 unit)  
PhysEd 91-699

* English competency can be met by completing English 28 or 101 or ESL 8 with a “C” or better.  
** Math competency can be met by completing Math 115 or a higher Math course with a grade of “C” or better.

---

The student interested in an AA Degree must complete courses within a area of concentration.  
Areas of concentration include  
- Liberal Arts: Arts & Humanities, Business; Communication, Literature & Languages; Natural Sciences; Social & Behavioral Sciences  
- General Studies: Arts & Humanities; Communication, Literature & Languages; Natural Sciences; Self-Development; Social & Behavioral Sciences  

For a full description of each Degree, AND a complete list of course content required for each concentration, please review the information under the Disciplines, Educational Programs & Course Descriptions section of the catalog (pages 71-143).  

**GRADUATION PLAN TRANSFER**  
Transfer students may also earn an Associate Degree by completing Transfer General Education Requirements as well as graduation requirements in Plan A or B. For further information, see a counselor.
Graduation Information

ASSOCIATE DEGREE - PLAN B

** Math competency can be met by completing Math 115 or a higher Math course with a grade of “C” or better.

ASSOCIATE DEGREE & CERTIFICATE PROGRAMS

Los Angeles Mission College offers several educational options. By completing the graduation requirements listed on the following pages, students may earn an Associate in Arts (A.A.) or Associate in Science (A.S.) Degree. The Associate in Arts or Associate in Science Degree may also be earned in a specific occupational discipline. To earn the Associate Degree, students must complete Plan A or Plan B graduation requirements and the specific list of courses for the major as noted on the following pages. Students wishing to earn a certificate in a specific area must complete the designated courses.

ADDITIONAL ASSOCIATE DEGREE REQUIREMENTS

Any student who contemplates acquiring a second Associate Degree must discuss this matter with a counselor to determine whether the student’s goal would better be met by either a Baccalaureate Degree or an Occupational Certificate. The Student must petition for a second Associate Degree with a counselor’s recommendation. The requirements for a second Associate in Arts or Associate in Science Degrees are as follows:
1. Completion of a minimum of 18 NEW units for Plan A or 36 NEW units for Plan B, including those required by the new major. Major course requirements completed in previous degrees awarded can be used again for the second degree.
2. Additional coursework completed must be approved by a counselor to meet degree requirements AND be related to the major in which the degree is sought.
3. A (“C”) 2.0 grade point average or better in all work attempted for the second degree.
4. Completion of at least 12 units of work in residence at LAMC.
5. Student must be attending one or more classes during the semester in which the degree is earned.
6. The graduation petition must be filed in the Admissions Office by the deadline date posted in the class schedule. Official transcripts of all colleges attended, including transcripts and documentation from first degree must be submitted to the Admissions Office.

Make Mission College Your First Choice For Transfer
Transfer Information

Transfer Center

The Transfer Center helps students prepare to continue their education at a four-year college or university. Counselors and the Transfer Center Staff are your link to transfer to UC, CSU and private institutions. Consult with a counselor regarding general education course requirements needed to transfer. The counselor will help you develop an educational plan to facilitate the process. Transfer center staff will help establish specific goals and objectives.

Transfer Center resources include online/traditional application filing, opportunities to meet with representatives from four-year institutions, a resource library, workshops on transfer issues and information regarding articulation agreements. Students are encouraged to begin planning for transfer as early as possible. Transfer students can earn an Associate Degree while completing transfer requirements.

Essential information for transfer students can be accessed via the following websites:

Articulation agreements: www.assist.org

ASSIST (Articulation System Stimulating Interinstitutional Student Transfer) is a computerized information system. It provides students with detailed course transfer and articulation information to help them plan their academic careers. The system facilitates a seamless transfer process, and reduces the number of redundant courses a student may take as they transition from the community college to the university. ASSIST is available for free to all students, faculty and staff via the Internet.

It is the official statewide source for course articulation information and includes:
- Articulation agreements between the CA Community Colleges and UC or CSU
- List of UC and CSU transferable courses
- List of IGETC approved courses for the advising form
- List of CSU GE approved courses for the advising form

CSU Mentor is a free online resource designed to help students learn about the CSU system. Students will be able to select a CSU campus, apply for admission and plan how to finance their higher education. The student will only pay the application fee charged directly by the CSU campus when an application for admission is submitted. Personal data entered by the user is not released without the user’s express consent and direction.

UC: www.ucop.edu

University of California Pathways is a free online resource designed to help students learn about the UC system. Students will be able to use one on-line application to apply to various UC campuses. The student will only pay the application fee for each university when an application for admission is submitted. UC Pathways provides Answers for Transfers, Financial Aid Information, Campus Publications, Directories and links to all UC campus web pages. Personal data entered by the user is not released without the user’s express consent and direction.

With careful planning, a student can complete the requirements for the Associate Degree while simultaneously completing the lower division preparation for most universities. Three requirements must be met in order to attain full junior standing at the UCs, the CSUs, or most independent universities to which students expect to transfer. These requirements are as follows:

1. Completion of 60 transferable units (Units may vary at independent universities).
2. Completion of the specific General Education Requirements for junior standing in the proposed college or university.
3. Completion of the lower division prerequisites for selected majors. These vary according to the institution in which students expect to enroll.

Note: Students expecting to transfer to such institutions should contact the Los Angeles Mission College Transfer Center to see a counselor and consult the respective catalog of these institutions regarding specific requirements for upper division standing.

INTERSEGMENTAL GENERAL EDUCATION TRANSFER CURRICULUM (IGETC)

CSU - Bakersfield, Channel Islands, Chico, Dominguez Hills, East Bay (formerly Hayward), Fresno, Fullerton, Humboldt, Long Beach, Los Angeles, Maritime Academy, Monterey Bay, Northridge, Pomona, Sacramento, San Bernardino, San Diego, San Francisco, San Jose, San Luis Obispo, San Marcos, Sonoma, Stanislaus.

UC - Berkeley, Davis, Irvine, Los Angeles, Merced, Riverside, San Diego, San Francisco, Santa Barbara, Santa Cruz.

What is the Intersegmental General Education Transfer Curriculum?

The Intersegmental General Education Transfer Curriculum (IGETC) is a general education program which community college transfer students can use to fulfill lower-division General Education Requirements in either the UC or CSU system without the need to take additional lower-division general education courses after transfer.

The IGETC is NOT an admission requirement to the UC or CSU system. There is no connection between completion of the IGETC and eligibility for admission to the UC or CSU system, or admission to a specific campus or program. Existing segmental and campus-specific admission requirements for transfer students remain unchanged. Requirements for lower division courses for admission to particular majors also remain unchanged.

Students who plan to earn a Bachelor's Degree should take a pattern of courses designed to complete the general education pattern and the lower division preparation for their major of the college to which they will transfer. Los Angeles Mission College can provide the lower division preparation for most majors at most universities. For purposes of classification, students who are paralleling the work of four-year colleges and universities are indicated as “transfer students.”
Transfer Information

A recommended total of 60 units must be completed before transfer, for priority admission status.

It is NOT advisable for all students to follow the IGETC. Some students may be better served by taking courses that fulfill the CSU General Education Breadth requirements or those of the UC campus or college to which they plan to transfer. Students pursuing majors that require extensive lower division major preparation, (such as engineering on all campuses or business at University of California, Berkeley) may not find the IGETC option to be advantageous. The Eleanor Roosevelt College and Revelle College of the University of California, San Diego do not accept IGEC. Additional lower division General Education Requirements may be needed prior to transfer. The IGETC will probably be most useful for students who want to keep their options open before making a final decision about transferring to a particular UC or CSU campus.

If you are approaching readiness for transfer and, for good cause, are unable to complete one or two IGETC courses, you may be eligible to complete IGETC after transferring. To file for partial certification of IGETC, you must fill out a Petition for Exception of Academic Requirements. Typical situations which constitute good causes for not completing one or two IGETC courses are illness, military service, and unexpected hardships, such as family or employment problems, which are experienced in the final term before transfer.

Courses taken at several institutions may be used to fulfill the IGETC. Students should be aware, however, that placement of courses within IGETC subject areas may vary from college to college. Placement of a course will be based on the college of attendance and its IGETC pattern at the time the course was completed. Completion of the IGETC program will be certified by the last community college which the student attends.

**CALIFORNIA STATE UNIVERSITIES**

**Transfer Requirements**

Students currently eligible from high school for admission to the CSU system may transfer at any time providing they have a “C” average in all CSU transfer units attempted. If ineligible from high school because of high school grade point average and SAT or ACT test scores, they must complete 56 CSU transferable units with an overall “C” grade point average in all transferable units attempted. If ineligible, in part or wholly, because of high school subject requirements, there are a number of ways they can make them up at Los Angeles Mission College. Applications and details are available in the Mission College Transfer Center. No more than 70 transferable units from community colleges will be counted toward the units required for the B.A. or B.S. Degree.

It is recommended that students complete lower division (the first two years of a four-year college) major requirements and general education requirements of the California State University and University of California before transferring. Note that some California State Universities and some departments may require more than a “C” average for admission.

**What is the CSU GE (CSU General Education)?**

Los Angeles Mission College has an agreement with the California State University System through which students at Mission College can complete all lower division General Education Requirements for any of the 23 CSU campuses. If the 39 units pattern described below is completed, Los Angeles Mission College will certify to the California State University System that all lower division General Education Requirements have been met. Students will still be responsible for 9 upper division general education units after transfer to be taken at the university campus granting the baccalaureate degree. Students can receive partial certification in one of the categories A through E after completing the requirements for that category. However, a minimum of 12 units from the certification requirements must be completed for partial certification.

It should also be noted, that for both full and partial certification, 12 units of residence as a student at Los Angeles Mission College must be completed. Students must petition for full or partial certification by seeing an LAMC counselor. With careful preparation, it is possible for a student to complete the A.A. General Education Requirements for Los Angeles Mission College while completing these certification requirements. The pattern presented below governs all students who began Los Angeles Mission College in the Fall or Spring of 2004-2006 and subsequently remain in continuous enrollment and earn credit each regular semester until they transfer. Some courses appear in several areas, but one course may NOT be used to meet more than one General Education Requirement. No more than two courses in any single discipline will be counted toward meeting General Education Requirements.

**INDEPENDENT CALIFORNIA COLLEGES & UNIVERSITIES**

California’s fully accredited independent colleges and universities provide a host of options at undergraduate, graduate, and professional levels for students planning to continue their education beyond community college. Students who transfer to independent colleges or universities find they are given academic credit for most, if not all, of their community college studies. Virtually all institutions give full credit for general education courses and usually other courses designated for transfer by the community college.

Some colleges and universities stipulate a certain number of completed units before considering students eligible for transfer. Others do not and will accept students at any time. The requirements are outlined in the respective college catalogs, available for viewing at the Transfer Center.

Independent institutions are generous in awarding credit. They invite students to make an appointment with their Office of Admissions in order to discuss transfer opportunities on a personal basis.
# INTERSEGMENTAL GENERAL EDUCATION TRANSFER CURRICULUM (IGETC) FOR TRANSFER TO THE CSU/UC SYSTEMS & AA DEGREE

(Courses subject to change each year)

The course requirements for all areas must be completed before the IGETC can be certified. All courses must be completed with grades of “C” or better. These courses are based on the 2007-2008 advising form. Be advised these forms are updated each year. Please consult with a counselor and the Transfer Center to keep informed of any changes.

## I. English Composition

2-3 Courses/6-9 Units
