- Establishing and Maintaining Interpersonal Relationships
- Communicating with Supervisors, Peers, or Subordinates
- Interpreting the Meaning of Information for Others
- Thinking Creatively

WHAT IS ENGLISH AS A SECOND LANGUAGE (ESL)?

The ESL (English as a Second Language) program is established to provide students with the vocabulary and grammatical structures needed for both school performance and everyday living. Cultural differences often cause interference, interruption, and misunderstanding in American classrooms. Because cultural behaviors are usually taken for granted by all humans, cultural differences may not be noticed until trouble erupts. The process of understanding involves four steps. First, understand the nature of the culture and its implications for the classroom. Second, gain all facts possible about the culture of all ethnic groups represented in the classroom. Third, learn to be a good observer of cultural patterns. Finally, provide for cultural differences in planning and conducting instruction. Together with the classroom teacher, the ESL teacher develops language acquisition and cognitive academic language skills through the use of sound instructional techniques. The ESL program provides the English Language Learner (ELL) the opportunity to grasp the academic, social, and cultural aspects of the English language through the teaching of reading, writing, spelling, and listening.
