WHAT IS INTERIOR DESIGN?

Interior design is all about how we experience spaces. It's a powerful, essential part of our daily lives and affects how we live, work, play, and even heal. Comfortable homes, functional workplaces, beautiful public spaces – that's interior design at work. The best interior designers make it look easy, crafting spaces that anticipate our needs and appeal to our emotions, but in reality a broad set of skills and technical knowledge is required. Interior design has changed dramatically since the early 20th century when it was just beginning to emerge as a profession. Today, interior designers work with contractors, architects, engineers, craftsmen, furniture dealers, business, and homeowners.
